

## Prins SilverLine LPG System

High quality universal LPG System for up to 8 cylinder petrol engines (MPI)

- Making vehicles drive cleaner without losing performance and driveability
- Based on the technology of the VSI system
- Prins injectors have been specially developed for the SilverLine system
- Suitable for engines up to 8 cylinders
- All components of the system are of OEM quality
- Satisfying the most demanding regulations and certification standards: Euro 6, R67-01
- For easy and quick installation

## Main components of the Prins SilverLine LPG-system:

## Highlights:

**Prins eVP-500 LPG Regulator**

- Unique and patented concept
- High performance (>300kW / 400-500hp) even at lower coolant temperatures
- Fully dynamic output pressure (0 - 5.5 Bar)
- Pressure adjustment via software
- Compact design

**Fuel Selector Switch**

- Small and compact design suits all interiors
- Fuel selection via smart touch control. Informs operator of LPG tank contents, audible buzzer to alert low level switching or fault codes plus illuminated fault code warning with LED
- Possibility to adjust LED colours

**Prins Injector Rail**

- 4 injector flow ranges
- Engine capacity from 9 kW up to 47 kW each cylinder
- Excellent linear flow rate and linear behaviour

**AFC Compact Pro**

- Is suitable for up to 4 cylinders with identical software and hardware strategy to the proven AFC -2
- CAN OBD connection
- Calibration wizard function
- Split fuel possible

**Filter Unit**

- Compact design for easy assembly
- The filter unit has a single outlet for 3/4 cylinders or double outlet for 6/8 cylinders
- It provides precise measurement of gas pressure
- It also measures the gas temperature, allowing the system to operate at optimum performance
- Easily mounted
- The recommended change interval is 10,000km or 1 year

**AFC 2.2**

- AFC- 2.2 for 6 and 8-cylinder engines
